

## **Gilder/Forbes Telecom Conference Taps Provigent Chairman to Speak on Broadband Wireless Communication**

Tuesday May 27, 8:13 am ET

### **Eli Harry Discusses Provigent Technology and Markets; Provigent's Solutions Target \$5.7 Billion Systems Market**

SANTA CLARA, CA--(MARKET WIRE)--May 27, 2008 -- Provigent, a leading provider of System-on-a-Chip (SoC) solutions for the broadband wireless transmission market, announced today that Eli Harry, Provigent Chairman will present at the 12th Annual Gilder/Forbes Telecom Conference held this week at The Sagamore Resort in Lake George, New York. Eli Harry will speak in the "Broadband Wireless: High-speed communication through integrated wireless solutions" session on Thursday, May 29, 2008.

Eli Harry, who has been Provigent's chairman for the last 5 years, and co-founder and CEO of LanOptics (NasdaqGM: [EZCH - News](#)) until 1999, was asked to participate in Telecom Conference as Provigent continues to establish itself as the leading merchant silicon provider in this market. "I am impressed with Provigent," stated George Gilder. "The company attracts support from such figures as Qualcomm Founder Andrew Viterbi because of its strong foundations in information theoretic algorithms."

Provigent pioneered a new level of silicon integration and algorithm innovations within the wireless transmission market. The Provigent SoC solutions, such as the PVG610 mixed-signal CMOS device, are the ultimate backhauling solution for cellular (2G, 3G and LTE) and WiMAX deployments.

"It is an honor to speak at the renowned Gilder/Forbes Telecom Conference," said Eli Harry. "I look forward to introducing Provigent technology, which solves the acute problem of backhaul bottlenecks in mobile networks. Enabling self-build networks, based on wireless transmission, is a key element for mobile operators for OPEX saving. Our technology enables self-build networks for the demanding current and future mobile networks requirements, such as 3G, LTE and WiMAX."

Provigent's field-proven, mass production SoC solutions offer significant system level enhancements while lowering overall system cost. With an established economy of scale, significant R&D investments and a focused dedication to the broadband wireless transmission industry, Provigent continues to maintain itself as the market's leading SoC provider.

#### About Provigent

Provigent is the leading supplier of SoC solutions for the broadband wireless transmission industry. More information is available on the Web at [www.provigent.com](http://www.provigent.com) or via e-mail at [info@provigent.com](mailto:info@provigent.com).
